

HI-LITE

# Enhance

## HIGH SPEED POLISHING & MAINTENANCE COMPOUND

### DESCRIPTION

Formulated to get the best from modern high speed floor polishing machines. Replenishes floor finish worn away by abrasive foot traffic. Applied with a mop it will cover wide areas much more quickly than spray buffing. Dries to a gloss so buffing can be postponed until most convenient. Then it polishes to a spectacular gloss that is safe to walk on.

### USES

For use in conjunction with a high speed (battery, electric or propane) floor machine on any floor with a protective foundation of floor finish. Use Enhance on vinyl, VAT, VCT, linoleum, marble, terrazzo, epoxied concrete, etc.

### HOW TO USE

1. Sweep floor and accomplish daily cleaning procedures. (Wet mopping or auto scrubbing).
2. Dilute product with water. Mix one quart concentrate to 1 gallon of water. (1 gal. to 4 gals.).
3. Apply solution using a mop or applicator as you would finish.
4. It dries to a haze so burnishing can be accomplished immediately after drying or at your earliest convenience.

### BENEFITS

**SAVES LABOR:** Applies with a mop to cover more area faster than spray buffing.

**DRIES TO A REASONABLE GLOSS:** Dries to enough gloss to stop at this point if desired.

**POLISHES TO A SPECTACULAR GLOSS:** A quick pass with a high speed machine makes floor look like glass, but safe under foot.

**REPAIRS SCRATCHES AND SCUFFS:** Stretches the interval between necessary recoating with finish.

**EASIER, FASTER CLEAN UP:** Unlike spray buff, there's no reason to get Enhance all over the floor machine.

**THE BEST FROM HIGH SPEED:** Enhance was made especially for use with high speed machines – any model.

### SPECIFICATIONS

APPEARANCE .....Milky liquid  
ODOR .....Characteristic  
SPECIFIC GRAVITY.....1.005 ± 0.005  
DENSITY.....8.39 ± 0.05 lb/gal  
BOILING POINT .....Near 212°F  
pH.....7.1 ± 0.5  
FLASH POINT .....None to boiling  
STABILITY .....One year minimum
