# Wash & Wax

## CAR WASH - FOR A SPOTLESS, HIGH GLOSS

### DESCRIPTION

A liquid concentrate formulated especially for washing vehicles of all kinds. It is harmless to all modern finishes including the newest acrylics, lacquers and enamels, and harmless to chrome, glass and plastics. Wash & Wax "sheets" as it cleans to avoid spotting and it leaves a microscopic protective film that enhances gloss.

### USES

For manual cleaning, beautifying and extending the life of the outer finish of automobiles, SUVs, trucks, buses, hearses, ambulances and other vehicles.

### HOW TO USE

1. Use approx. 1/2 oz. to 1 oz. concentrate to two gallons of water. Use a jet of water or stir to create heavy foam.
2. Apply solution liberally with a sponge or towel. Rub slightly to remove stubborn dirt.
3. Wash one section of car at a time. Then rinse thoroughly with clean water before area dries.
4. Properly rinsed, the car will drain dry. However, to avoid water spots, wipe areas with sponge or chamois.

IMPORTANT - DO NOT WASH CAR IN THE SUN,  
OR WHEN THE FINISH IS HOT.  
DRAINS DRY WITHOUT STREAKING  
HIGHLY CONCENTRATED

### BENEFITS

**SUPERIOR CLEANING:** Removes sticky road film, oily film and just plain dirt.

**FREE RINSING:** Just floats away soil to leave surface spotless and streak free.

**SUBSTANTIVE FILM:** The Wash & Wax solution contains a wax-like solution that attaches to the surface of the vehicle as if magnetized to leave a glossy, protective film.

**PROTECTS:** The magnet-like film protects against salt, rust and the like that would normally affect automobile finishes.

### SPECIFICATIONS

APPEARANCE....Slightly viscous blue liquid  
ODOR .....pleasant  
SPECIFIC GRAVITY .....1.010 ± 0.005  
DENSITY.....8.43 ± 0.05 lb/gal  
BOILING POINT .....Near 212°F  
pH.....7.5 ± 0.5  
FLASH POINT .....None to boiling  
STABILITY .....One year minimum
